NYS awarded Rome \$10 million to revitalize the waterfront area. The Open Call invites proposals for transformative capital projects that will help create a vibrant waterfront district. Public, private, and non-profit entities are eligible to apply. The Rome DRI Local Planning Committee will review the proposals, with public input, and recommend a short list of projects to the state. The state will determine which recommended projects receive a DRI funding award.

Letters of Interest for Small Projects are also welcome.
